

Imagery Light

YR-2001A

- ◆ Voltage:AC110V-130V,220V-240V(Optional)
- ◆ Frequency:50/60Hz(optional)
- ◆ Lamp:575w
- ◆ Power:575w
- ◆ Color temperature:3200k
- ◆ Beam angel:10~36'
- ◆ Feature: Adopt specially designed prism reflector for spot system of this projector ,high light utilizing rate ,symmetrical shooting facula brightness ,object lens
- ◆ has 4 kinds adjustable ,beam angel is 10' ,19' ,26' ,36' , up to illumination demands of different shooting distance . imaging sheets are 4 pcs push- and -pull way , can split the shooting facula, form to rotundity, square rectangle, trapezia, triangle, etc., shooting area is based on the light struction ,satisfy spacial environment of different entertainment places and artistic atmosphere.
- ◆ Dimension(cm):32*32*52
- ◆ G.W:6.2kg
