

Searching Light

YR-868

- Voltage: AC 220V-240V(Optional)
 - Frequency:50/60HZ (Optional)
 - Power: 1200W 7500W
 - Lamp: Xenon Lamp(1000W/2000W/3000W/4000W/5000W/6000W/7000W)
 - Color Temperature: 6200K
 - Color temperature: many colors available (red, yellow, blue, green, white)
 - Light Beam: parallel light beams, sizes adjustable
 - Function: outdoor lighting, waterproof, can be positioned, upward and downward angles adjustable, device of adjusting the focal distance, can be adjusted to gather or diffuse light, high power fans refrigeration alternative single.
 - Scan: Pan 90°, Tilt 90°.
- Outer shell: aluminium alloy, the outer shell of plate gold, surface with insulation spray coating.
 Protection Grade: IP44
 Shooting distance: 1-7 kilometers
 Application Area: widely used in shooting to the building wall, in large plaza, performance stages, fountain pools, entertainment places, tall architectures, fit for city night piece project
 Dimension (cm):82X72X115
 G.W: 80kg

City Light

YR-889

- Voltage: AC110V-130V,220V-240V(Optional)
- Frequency:50/60HZ (Optional)
- Power:250VV/1200VV/2500VV
- Lamp: MSD250W/HMI1200W/2500W
- Color: many colors selectable(red, yellow, blue, green, white)
- Shooting distance: Shoot distance can be the most as far as 150M(approximately the height of 50 floors) shoot angles range from 70 to 270 , using the button to replace the lamp, the shooting distance can be adjusted by adjusting the lamp, adopt the CMY color changing theory limitless color mixing brightness adjustment; protection grade IP54.
