

BEATISER AS-15M

Detailed Product Description

With its specially developed 15" woofer and 1.4" HF driver, our AS-15M is a true power pack of a monitor that won't let you down no matter how loud it gets on stage. And it retains its clarity even at extreme sound pressure levels, so that it will always do what it's supposed to: allow you to hear exactly what you and your band are doing. Nonetheless, the AS-15M's highly efficient components ensure that it will deliver at lower levels as well. Naturally, this AS monitor speaker system also features optional full range mode.
